MIRROR TV

HIGH-TECH MIRROR TELEVISIONS FOR BATHROOMS AND LIVING AREAS

One mirror - two functions. While the mirror integrates itself decoratively into the interior and assists in styling and care, the integrated television - as soon as it is switched on - provides the best entertainment and information. In the off mode, the TV screen remains completely invisible. In terms of mirror size and TV placement, the product range is tailored entirely to the wishes of customers and planners. This makes every mirror television unique.

THE DIGITAL REVOLUTION IN THE KITCHEN

With Smart Home technology based on Android, the kitchen cupboard door becomes interactive. The Kitchen Smart conjures up cooking videos, Internet TV and many other attractive apps on its smart surface at the touch of a finger or via voice control. Via Bluetooth or WiFi, it provides a connection to smart kitchen appliances and consumer electronics. Its built-in camera allows you to Skype and chat, while the integrated microphone offers perfect voice control. Developed specifically for the compact oven cabinet, its high-quality glass surface adapts perfectly to common kitchen appliances. The storage space is retained, and the display function is invisible when switched off.

- ✓ Effortless Smart Home control

✓ Android based system

✓ Integrated camera, microphone and speakers

✓ Internet access WiFi or LAN
- ✓ Connect to external devices via Bluetooth

✓ Voice Control & Touch Screen

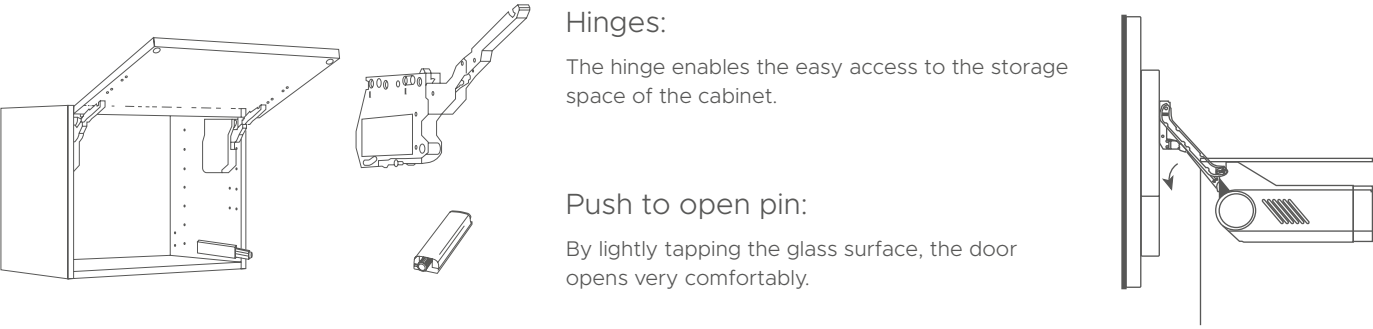

✓ Storage space remains completely intact

✓ Steam & splash water protected
